

**David and Zelda Moore**

Chartered Accountant and Psychologist

"We start with a dream and end with a team"  
John Maxwell

David and Zelda Moore are currently building their Amway business together. David is a qualified Chartered Accountant and worked in commerce and industry as both a Corporate Executive and Business Owner for a number of years and Zelda is a practising psychologist. They are building their Amway business with the focus on long-term benefits. The Moores have two children, both of whom are out of school. They did not always have the chance to spend the time they desired with them, but they are now working towards having this option with their grandchildren. David has done in-depth research and they are very aware of the financial trends of most people in later life: very few people will ever be able to retire financially free. The Amway business is the only way that they have seen that can truly give one the financial freedom so many folks only dream about.

Although David and Zelda have been very committed and focused, Ruby was never a goal – but something that happened along the way! They are enjoying the recognition and level of achievement on their way to a bigger goal. Quoting John Maxwell, David says "we start with a dream and end with a team". Nowhere is this statement more apt than in the Amway business. David and Zelda are looking forward to being able to make a significant difference in the lives of others. "We will always be grateful for the mentorship and guidance which we have received and are still receiving as we build our business," says David. He describes this as "simply a product of the Compassionate Capitalism vision of the Amway founders". David and Zelda testify that they will always be grateful for the opportunity they were given and they see it as their privilege to offer the same to others.

**Brad and Lara Rosmarin**

Johannesburg

Construction Project Manager and Behavioural Risk Manager

Brad started building the Amway business while living in Cape Town and working as a Construction Project Manager. He was not driven by a dream, but rather the fear of missing out and getting left behind, so he joined the business reluctantly. For the first while, Brad did not treat Amway as a business, but rather a hobby that may or may not succeed, but the dream was still missing. An IBO couple who joined his business introduced him to their niece Lara and 18 months later they were married. After moving to Johannesburg, Brad and his 'new business partner' Lara, decided to start taking their Amway business seriously and after a year in Johannesburg reached Silver recognition. Lara has an honours degree in Psychology and was working in the field of Behavioural Risk Management and Brad was working in the property industry so life was comfortable and their Amway business, once again, became something that would be good if it was successful, but not essential. Everything however changed in March 2006 when their beautiful daughter Ella arrived. From that moment on Brad and Lara have treated their Amway business like a 'real' business. Once the business is fully established Lara's dream is to work with special needs children which is her passion. "Every child deserves the best opportunity despite their family's financial situation" says Lara. Brad's passion is to be significant and to travel around the world speaking as a Diamond. "I want people to leave a seminar where I was the guest speaker and say 'my life is better now, I have hope.'" With the full support of their families they are building their business with some close family members. In the next 12 to 18 months they plan to create a legacy for their precious daughter, Ella and to provide choices for their family that they would never have had otherwise.

Ubukulu  
abubangwa  
(Xhosa: South Africa)

**One does not achieve greatness by claiming greatness**

**Explanation:**

A man is judged by his actions, not his boasting.

*Platinum*

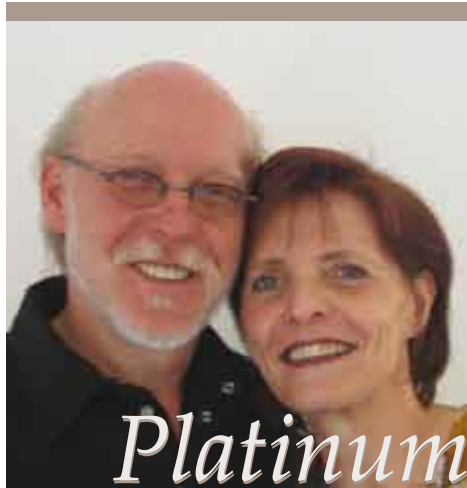

**Robert and Cecile de Lange**

*Secunda, Mpumalanga*  
Specialist and Hairdresser

"Nothing of significance was ever achieved by an individual acting alone. Look below the surface and you will find that all seemingly solo acts are really team efforts"

Robert and Cecile de Lange joined the Amway business during November 2003 to generate some extra income. Since then, they have achieved success after success and have changed their personal circumstances drastically. Cecile use to work from eight o' clock in the morning until seven in the evening, managing her own hair salon and business. The greatest challenge was to start with the Amway business, while still busy with their full-time occupations, but the experience has brought them closer to the financial freedom they desire.

Robert and Cecile have also found it worthwhile on a personal level, as they are helping others to achieve the same, with each step that they take towards the Amway goals of freedom, family, hope and reward they are enabling other IBOs to also achieve success. Robert and Cecile have used the Amway business opportunity as a vehicle to grow and make their dreams come true, and one of the things that stand out in their journey is that they could start their Amway business without investing a huge amount of money. They are enjoying the rewards within the business, especially the travelling and being able to see the world. Their immediate goals are to reach Emerald and to take their parents overseas with them. As a couple they are reaching out to dream many more dreams and make them all come true!

*Platinum*

**John and Yvonne Lübbe**

*Botswana*  
Missionaries

'Give a man a fish and he will eat for a day. Teach him how to fish and he will eat for a lifetime.'

*Chinese Proverb*

Until approximately three years ago John and Yvonne Lübbe had never been exposed to direct marketing. When this opportunity was presented to them they immediately felt that this could be an answer to the many folk struggling financially they had met in their ministry.

They were also looking for ways to support the numerous projects of the Christian charity in Gaborone Botswana that they are heading up. As they joined the Amway business they soon realised that it would take some time and hard work to achieve the higher recognition, but Amway offers a reward system that allows them to plough back into the Charity.

Soon a great team of IBOs emerged and together they saw a successful 2006. Having reached Platinum they are encouraged to take a further step and work towards Emerald. To them Amway is a unique business opportunity and it includes working with a company with integrity and value systems that they agree with. This gives them confidence that they will be able to enable more people to 'eat for a lifetime'.

With a fantastic team and with their eldest daughter also achieving remarkable success as an independent business owner, John and Yvonne feel positive that during 2007 they will achieve higher levels. They are very thankful to those that introduced them to this unique business opportunity!

*Platinum*

**Christopher and Joyce Mzileni**

*Pretoria*  
Nurse and Medical Doctor

Joyce and Christopher have been in the business a number of years now, but they took ownership of the business only about two years ago. They felt that if it was to be successful, it was up to them. At first they started the business seeing the possibility of earning extra income and did not have lofty ideas and dreams!

The Mzileni's main obstacle was, as they say: "... the six inches between our ears; because no one close to us had done what we were trying to do. Many people we talked to were sceptical. For things to change we had to change our thinking."

Christopher and Joyce are excited to reach the Platinum recognition, and proud of their success. They can see exciting possibilities ahead and are planning to reach Emerald within the next 12 months, and they know that there is nothing that can stop them now! They will reach success after success. To them Amway is the best business opportunity because it delivers on its promises and the rewards can be phenomenal. They see the Amway business opportunity as the ultimate business for self actualisation and a platform where one can achieve significance, as a person and also in the lives of other people. Since joining Amway they have found a difference in their own lifestyle; and their outlook has improved positively.

Christopher and Joyce are married with three children, and their family is supporting them in their Amway business, and are highly optimistic about the future and their success.

**Kevin Sanderson**  
*Johannesburg*  
 Brand Management and Marketing

Kevin has been involved in the business for the past seven years, working towards a better future, for himself, his family and those around him. He works in marketing, specialising in brand management, and long hours were taking its toll on his family life, as he was working between 16 and 18 hours a day.

Starting off in the Amway business created several challenges, of which the most major for Kevin was overcoming a low self-esteem; talking to people, talking to groups and reaching out to uplift others.

Reaching Platinum has brought about many changes for Kevin, but the most important is that it has strengthened his belief in his own abilities and the knowledge that he can, and more so, that he is living a life of significance.

The Amway business has truly brought about freedom and hope in Kevin's life. He is looking forward to reach Emerald in the next 12 to 14 months, and he would also like to move from a part-time to a full-time based, Amway business.

He is sharing his dreams with his supportive partner, and is blessed to have a son and daughter, all of whom he is sharing his success with through travelling, spending time together and spoiling them with the luxuries they deserve.

**Corné and Michelle Smith**  
*Secunda, Mpumalanga*  
 Metallurgical Engineer/Life coach and Real Estate Agency Owner

Corné and Michelle Smith have been in the Amway business for nearly six and a half years. They achieved silver recognition six years to the date of joining the Amway business. Corné and Michelle went to the Maldives for their honeymoon in March 2000, and they clearly remember seeing a yacht anchored in a bay nearby and wondered how it would feel to have such a lifestyle! They also knew that their current jobs would not be able to take care of the lifestyle they truly desired. When they returned home from their honeymoon they saw the business plan for the second time, and this time it made sense ... and a dream was born. Michelle started her own Real Estate Agency and Corné started to be more involved with Corporate Training and Development and is now also a Certified Life Coach.

They are both working towards and sharing the common denominator of helping people to maximize their potential! They are thankful to be involved in a business where their hard work is paying off and that they can align the values of the business with their own and also enjoy tremendous personal growth while working together. Their goal is to achieve Emerald recognition and to definitely be part of the Hawaii ALTS. The Smiths live in Secunda, Mpumalanga and describe themselves as 'dream-chasers'! Their Amway business has opened up many opportunities to travel and to enjoy luxuries, but to them the most important thing is that they are touching lives everyday. It is because of the determination and perseverance of Michelle's parents that they are sponsored in the business and Corné's parents and sister have also joined the business. This is a dream come true for Corné and together Corné and Michelle are fulfilling another dream: building a legacy for when they have their own children and family.

**Anton and Liza van Reenen**  
*Khyber Rock, Johannesburg*  
 Quantity Surveyor and Chartered Accountant

Liza van Reenen joined Amway 17 months ago. Joining made sense as it was a low risk business that could be an income generating back up for the uncertain corporate and business world. In addition, Liza had a vision of the growth potential of the business for the future. Prior to joining Amway, Liza and Anton focused on working from weekend to weekend and then really looking forward to December holidays with limited time to enjoy their passions and to spend time with each other. Their life could be compared to a 'Ground hog day' experience. They always believed there must be another way to get ahead, but knew only of traditional businesses including property. To this end Anton started a construction company as a sideline, at the time Liza joined Amway. When Liza went Silver, it was clear that the Amway opportunity presented less headaches than traditional business and Anton then joined her in growing their business together. Challenges faced in building the business included rejection from friends and family as they did not always, and some still don't see the Amway opportunity as a real business. Reaching Platinum is exciting as it was a goal they have worked towards since going Silver. However, this is only a stepping stone to the next goal to the Emerald recognition. Amway has provided an almost risk-free way to build a business that will allow them to live their passions and create a future for them and their future children. Liza enjoys playing golf, while Anton, also a commercial pilot, has a passion for aeroplanes and flying. The business has allowed Anton and Liza to harness their energy and vision in a common direction, looking forward towards their future together. They believe Amway allows anyone with a dream, drive and work ethic to create the future they choose. The system, products and incentives are there for the taking. It's up to you to do it!

# Honour Roll - November 2006

## Luke and Genevieve Atkinson

Johannesburg

When Luke and Genevieve got married, they wanted to spend a lot of time together, but with Luke being a very successful blacksmith-business owner and Genevieve in great demand as a realtor, they ended up spending more time apart than together. Embarking on the journey of being independent business owners, they discovered that you can live the life you always imagined and that through working hard and with the support of a team, anything is possible.

Luke and Genevieve Atkinson are moving up and are on their way to become Diamonds! The only question they are asking is 'who is coming with us?'

## Suzanne and Steve Ayres

Bryanston, Johannesburg

Suzanne and Steve joined the business in June 2005. Suzanne is an ex-journalist who had left a career in PR to bring up their two daughters, and was beginning to think about going back to work when they came across the Amway business opportunity. They realised that with the flexible working hours, team leverage and phenomenal business structure, they could build a great business in a relatively short space of time, with Amway support and the systems that are in place. Suzanne still has plenty of time to deal with running their home and bringing up Jodie (aged 8) and Georgia (aged 6). Steve continues to work full-time as the CEO in a group of IT companies, as well as being a director of a lifestyle property business.

## Marinda Bandat and Stephanie Pond

Biokineticist and Video Producer

Marinda and Steph started to build their Amway business six months ago; they decided to be totally committed, made a conscious decision to build the business fast, be teachable and be a hundred percent 'sold out' to their up line. They were even willing to give up golf for a while... and now they know that with being successful in the Amway business, the opportunity to play on the best golf courses all over the world will be available to them. Success has also raised their level of belief in Amway and trust in their team, and with reaching each milestone, they are also growing personally. Marinda and Steph have a close-knit family who loves to spend time together. Marinda has two small children; the eldest is six years old and the youngest 18-months. Marinda's mom and stepdad stays with them, providing an incredible support system, something that they are extremely grateful for.

## Danie and Marisa Cock

Sales and Marketing: self employed

"Life should be a fulfilling journey, not just a struggle to survive!"

Danie and Marisa Cock's journey started in July 2003, when they partnered up with Amway, a world-class manufacturer of high-quality consumable products... after getting more involved and learning about the products and the business plan, they realised that it is an extraordinary opportunity. Danie and Marisa started to build the business to ensure a bright future for their children, DP (3 years) and Danisha (8 months), and they are thrilled to see that their success are also spilling over into the lives of many IBOs. Reaching Gold is a stepping stone to Platinum, which is another stepping stone to Emerald, which is the recognition level they are planning to reach during 2007 and 2008.

**Nick and Sam Denoon-Stevens**  
Johannesburg

Nick and Sam Denoon-Stevens have been using all the Amway products for the past four years and started to build their business a year ago. They were motivated to build actively by the credibility of the team, its leadership and knowledge. Nick and Sam used the Amway business opportunity to replace Sam's professional income after their son was born. At first it was difficult as they had a fear of talking on the phone to strangers and they also had to work on their time management skills.

To the Denoon-Stevens family Amway is giving them the chance to live the lifestyle they desire, and to be able to raise their eight-month-old son, Matt and future siblings, within this lifestyle exposed to the freedom that the Amway business opportunity offers.

**Beverley Milun**

Beverley was introduced to the Amway business five times: and only the fifth time did she decide to do the research and the result motivated her to change her own life to one of abundance for herself, her son, her special family and everyone she has the privilege to share her life with. To Beverley her success has much to do with the complete support she receives, not only from Amway, but from her family and friends.

To Beverley the Amway Corporation truly represents the most phenomenal investment programme: she has learned that one's business growth upwards is directly proportional to the depth of your humility and how willing you are to share with other people. She is looking forward to grow with her business to Platinum and Emerald and has her sights set on achieving major success by 2008.

**Gary Palmer**  
Johannesburg

'Life starts at the end of your comfort zone'

Gary Palmer discovered one great truth in life ... it only starts when you step out of your comfort zone and display an inner willingness to be challenged and to challenge. As a 'farm-boy' that found a career in engineering and IT, a step into the Amway business opportunity truly represented moving out of his comfort zone.

The Amway business seemed to good to be true, but his dreams of an extraordinary lifestyle drew him to the opportunity. In Amway, Gary found people with integrity, values and quality beyond what he has known in the corporate environment. Gary is now building a business for his family and investing in a future of helping others, giving hope, an extraordinary lifestyle and freedom!

**Fred and Marita van der Riet**  
Cape Town

"Giving up what you want most"

Fred and Marita joined the business three years ago, but started to work actively 18 months ago. The van der Riet's joined because it is their desire to fulfil their own dreams: to assist others to develop fully.

Fred and Marita had to make a huge commitment towards building their business, in essence, finding the time to do it... and giving up that which they wanted most... their time. Reaching Gold is their assurance that they can achieve Emerald and Diamond levels through this free enterprise opportunity. To them Amway is truly a company where you get rewarded for being successful. They are the proud parents of four sons, John (25) Jaco (24) George (20) and Louie (17).
